A Team Approach

When you select George F. Young, Inc. for your Architectural needs you get the entire resources of the GFY team which not only includes Architects, but also Civil Engineers, Ecologists, Landscape Architects, Planners, Subsurface Utility Engineers, and Surveyors and Mappers to seamlessly design, permit and construct your project.

By providing all of the above critical services in-house, we maintain better control of your schedule and budget.

Your Architect will be your single point of contact and will control our comprehensive in-house team. Team meetings can be scheduled in an instant and be conducted efficiently. Questions can be answered and issues resolved with a quick walk down the hall.

ECONOMICALLY VIABLE

We understand that every project has a budget and that our Clients must make a profit for us to be successful and profitable.

TECHNICALLY SOUND

We are dedicated to providing technically sound designs that are a result of our experience and attention to detail.

AESTHETICALLY PLEASING

We design structures that enhance the natural beauty of Florida and use materials that are aesthetically pleasing and sustainable.

With only a select few Subconsultants on the team, we are able to effectively manage their efforts to create a seamless workflow. We only use reliable Subconsultants that we have worked with and are confident in their ability to meet our high standards of service and quality.

You can rely on George F. Young, Inc. for innovative solutions that work to:

Turn your vision into reality.

SUSTAINABLE SOLUTIONS

The Leadership in Energy and Environmental Design (LEED) Green Building Rating System™ encourages and accelerates global adoption of sustainable green building and development practices through the creation and implementation of universally understood and accepted tools and performance criteria.

LEED Professional Accreditation distinguishes building professionals with the knowledge and skills to successfully steward the LEED certification process. LEED Accredited Professionals (LEED APs) have demonstrated a thorough understanding of green building practices and principles and the LEED Rating System.

George F. Young, Inc. has LEED Accredited Professionals that have real world experience with designs and materials that support LEED® certification.

Creating a better place

George F. Young, Inc. is committed to partnering with our clients to solve problems and create better places to live, learn, work, and play.

We provide our Clients innovative solutions for sustainable structures that are not only cost effective, but improve our environment as well.

You can rely on George F. Young, Inc. to find the solutions that will make your project a better place.
