The George F. Young Difference

WE PROVIDE THE EXPERTS TO SOLVE PROBLEMS AND MEET CLIENTS' NEEDS

"Isn't anything easy anymore?" is a common thread of conversation especially when dealing with land. Whether it's infrastructure, buildings, or roadways; there are a myriad of problems that can arise during the process and "who can help me solve these problems" is often the question.

George F. Young, Inc. is your answer. We are problem solvers and want to tackle "the tough ones". What makes George F. Young, Inc. any different from the other consultants?

We provide comprehensive in-house experts to solve problems when they arise including:

- **Architects**
- **Civil Engineers**
- **Ecologists**
- **Hydrographic Surveyors**
- **Land and Urban Planners**
- **Landscape Architects**
- **Real Estate Brokers**
- **Subsurface Utility Experts**
- **Surveyors and Mappers**

How we assist you

George F. Young, Inc. specializes in providing support services to Transportation Engineering companies and the FDOT throughout Florida.

George F. Young, Inc. does not provide Transportation Engineering, therefore we are not your competitor, but your partner in the transportation services arena.

Our team will be led by an experienced Project Manager who will be your primary point of contact. You will save time, reduce stress and avoid misunderstandings by dealing with only one person.

We provide Subsurface Utility Engineering, Design Surveys, Right of Way Control Surveys, Right of Way Maps, Hydrographic Surveys and Ecological services to support Transportation Engineering Companies, Local Government, and the FDOT in the construction of new roadways, roadway improvements, bridges, and recreational trails.

The result:
What you need... when you need

What we do...

Transportation Engineering Support provides Transportation Engineering Companies, Local Governments, and the Florida Department of Transportation a full array of services that support the Planning, Designing, Permitting, and Constructing of transportation projects. Our Clients use our

Subsurface Utility Engineering

- Electronic Utility Designations & Ground Penetrating Radar
- Non-Destructive Vacuum Utility Locations
- Utility Coordination

Smart Probe™ Technology

- Maps Underground Piping
- Gyroscope-Based Inertial Measurement Unit
- Providing Accurate 3D Measurements of Pipelines for as-builts
Pipe Diameters from 1.5" to 96"

Surveying and Mapping

- Design Surveys
- Right of Way Control Surveys
- Right of Way Maps

Hydrographic Surveying

- 3D Underwater Mapping for Bridge Inspections
- 3D Bottom Mapping for Bridge Design

Ecology

- Protected Species Surveys, Monitoring and Mitigation
- Wetlands Determination and Location
- Wetlands Permitting and Mitigation
- Vegetation and Habitat Mapping

Our Advantages

Transportation Engineering Support provided by George F. Young, Inc. offers you the following advantages:

- We will be your partner, not your competitor.
- Ease of access to Senior Management that only a locally owned company can provide.
- Work completed on schedule with no delays due to a learning curve.
- Lower project costs resulting from years of similar experience.
- Peace of mind in knowing that your consultant "has been there and done that".

Company Overview

Founded in St. Petersburg, Florida in 1919 by pioneer Engineer and Surveyor George Fleming Young; George F. Young, Inc. has been in continuous operation in Florida for nearly 100 years and remains a local, Florida owned company today.

Originally, George F. Young, Inc. was a firm that focused on providing sound Engineering and Surveying services to the public and private sectors in Pinellas County. In the 1920's Mr. Young's innovation soon became well known and his reputation began to grow as he expanded and took on projects throughout the state of Florida. However, Mr. Young did not build his reputation on innovation alone; He was even better known for his honesty, integrity, and dedication to service.

Today George F. Young, Inc. has grown to become your single source for Land Development, Educational, Healthcare, Institutional, Municipal, Parks and Recreation, Property Transaction, and Transportation Engineering Support projects throughout Florida and the Caribbean Basin, while continuing to stand by those core values that Mr. Young built his company on almost 100 years ago. From concept through completion we will provide you the resources of an experienced staff of professionals, technicians and specialists who are dedicated to providing service second to none.

Our approach is combining our in-house team of Architects, Civil Engineers, Ecologists, Hydrographic Surveyors, Landscape Architects, Planners, Real Estate Professionals, Subsurface Utility Engineers and Surveyors with a skilled Project Manager. The Project Manager will be your one point of contact that will provide you a coordinated effort to seamlessly move your project from start to finish. With our 6 offices located throughout Florida, we are well positioned to serve you in this manner anywhere in the state.

As we look forward to the next 100 years, George F. Young, Inc. will remain dedicated to those core values instilled in us by George Fleming Young; honesty, integrity, and dedication to superior service combined with innovation achievable only when a dedicated team works together with one goal in mind - to *"turn vision into reality"*.
